IDEAS
by **GUARANT**
International

Each client and each event is unique to us. We always come with original ideas that we combine with quality and reliability.

We also transfer creativity to hybrid and virtual events. In virtual environment, we will prepare a panel discussion, a teleconference with a visual interface, interactive online presentation and studio TV stream.

We turn dreams into reality!

Modern associations deal with issues in many ways similar to companies and other organizations. The Association House takes care not only of the day- today running and development of professional associations, but also of supporting strategic and financial decisions, marketing, communication with members and the public, and support for the association's management.

Association House offers a quality experienced professional team. There is also its own application and software background for everyday communication with members, management and administration of membership bases and electronic elections.

Venue Management offers services that can be divided into two primary areas. The first is consulting/advisory activity for developers/investors who are interested in building social, multifunctional, conference or congress spaces in their properties. The second area is the operation and commercial representation of social, multifunctional, conference and congress centers.

In 2023, we collaborated on two projects with developers/investors. Since 2012, we have been operating a venue - **Conference Centre City** www.kc-city.cz.
